Projects

Vendor & Purchase Order Manager (Enterprise SaaS ERP System) | MongoDB , Express.js, React.js, Node.js, Tailwind CSS, JWT, Google OAuth, Recharts **Feb' 2026 – Feb' 2026**

- Engineered a full-stack ERP system using **MERN stack (MongoDB, Express, React, Node.js)** to manage vendors, purchase orders, invoices, and payments
- Integrated **JWT authentication and Google OAuth** with role-based access control for secure multi-user management
- Optimized financial tracking through **real-time dashboard, reporting, and audit logging** for better decision-makin
- **GitHub Repository Link:** ***Vendor-And-Purchase-Order-Manager***

Alumni Fusion — Alumni Association & Networking Platform | MERN Stack, Tailwind CSS, JWT, Passport.js, Vite **Nov' 2025 – Dec' 2025**

- Developed a scalable **MERN-based web application** for alumni networking, job portal, and event management
- Implemented secure **authentication using JWT and Passport.js** with protected routes and role-based authorization
- Designed interactive features including **real-time chat, alumni directory, and admin dashboard** for user engagement
- GitHub Repository Link: ***Alumni-Fusion***

Online Election-Voting System | HTML, CSS, Tailwind CSS, JavaScript, PHP, JSON **Jun' 2025 – Jul' 2025**

- Built a secure **web-based voting system using HTML, CSS, JavaScript, and PHP** for voter and candidate management
- Ensured data integrity with **one-time voting mechanism and validation logic** to prevent duplicate votes
- Implemented **responsive UI and real-time result visualization** for smooth and transparent user experience
- **GitHub Repository Link**: ***E-Vote***

Internship

Online Training – Mastering Dsa with C++ (Fifth Force) **|** ***Link*** **Jul' 2025 – Aug' 2025**

- Completed an intensive training program focused on **Data Structures & Algorithms** using **C++,** including **advanced file handling techniques.**
- Gained strong hands-on experience in implementing and optimizing solutions using core **DSA concepts** such as **arrays, linked lists, stacks, queues, trees, and sorting algorithms.**
- Designed and developed a comprehensive **final project in C++**, applying problem-solving skills and algorithmic efficiency.
- Actively participated in **instructor-led sessions** and successfully cleared the **final viva evaluation**, demonstrating solid technical and practical understanding.

Certifications

Cloud Computing **Aug' 2022**
NPTEL — ***Certificate Link***

Mastering DSA with C++ **Mar' 2021**
FIFTH FORCE — ***Certificate Link***

Technical Skills

Languages: C, C++, Java, JavaScript

Technologies/Frameworks: HTML and CSS, React JS, Node JS, Git, GitHub,

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design, JavaScript

Education

Lovely Professional University Punjab **2023 – 2027**
Computer Science and Engineering — CGPA: 6.91 *Phagwara, Punjab*

Himalaya International School **2021 – 2022**
12th with Science — Percentage: 64% *Ratlam, Madhya Pradesh*

Himalaya International School **2019 – 2020**
10th with Science — CGPA: 7.9 *Ratlam, Madhya Pradesh*
